Notice and Request for Consent to Evaluate

When a request for an initial evaluation is received, the district must provide notice in accordance with 34 CFR § 300.503. If the district proposes to conduct an evaluation, the district must request parental consent to evaluate the student.

If the child is a ward of the State and is not residing with the child's parent, the public agency is not required to obtain informed consent from the parent for an initial evaluation when certain conditions are met. The public agency would be required to identify and locate a surrogate parent for the student.

Evaluation and Individualized Education Program (IEP)

Evaluation

A Multidisciplinary Evaluation Team (MET) conducts the initial evaluation and makes a recommendation to the IEP Team regarding eligibility.

Individualized Education Program

Within 30 school days, the IEP Team is convened to determine initial eligibility or ineligibility and provide an initial offer of a free appropriate public education (FAPE). If determined eligible, the IEP Team develops the student's IEP. The IEP is completed when the district provides notice of an initial offer of a FAPE to the student's parent or the district provides notice of ineligibility. Notice must be provided within 7 days of the IEP Team meeting and in no case more than 30 school days from the date parental consent was received.

Timeline: Within 30 school days*

The 30 school day timeline is counted from the date the district receives the parental consent to evaluate to the initial offer of a FAPE. Proposed evaluations are completed within the 30 school day timeline.

*When the parent and the district agree, the timeline for the initial evaluation and IEP may be extended beyond 30 school days. The extension must be agreed to in writing, measured in school days, and agreed to on or before the initial IEP due date.
